

TD n°2 : corrigé

PTSI B Lycée Eiffel

2 octobre 2012

1 Petits exercices

1. `degre2 :=proc(a :real, b :real, c :real)`
 `local delta :real;`
 `delta :=b^2-4ac;`
 `if delta>0 then print((-b-sqrt(delta))/(2a)); print ((-b+sqrt(delta))/(2a))`
 `elif delta=0 then print(-b/(2a))`
 `else print('Pas de solutions réelles') end if;`
 `end proc;`
2. `facto :=proc(n :integer)`
 `local p :integer;`
 `if n=0 then 1 else n*facto(n-1) end if;`
 `end proc;`
3. `somme :=proc(n :integer)`
 `local k :integer, s :integer;`
 `s :=0;`
 `for k to n do s :=s+k^3 end do;`
 `print(s);`
 `end proc;`
4. `argeo :=proc(n :integer)`
 `local i :integer, a :real, b :real, c :real;`
 `a :=1; b :=2;`
 `for i to n do c :=a; a :=(a+b)/2; b :=sqrt(c*b) end do;`
 `print(a); print(b);`
 `end proc;`
5. `syracuse :=proc(n :integer)`
 `local u :integer, i :integer, max :integer;`
 `u :=n; max :=n; i :=0;`
 `while u<>1 do if type(u,odd) then u :=3*u+1 else u :=u/2 end if; if u>max then max :=u`
 `end if; i :=i+1 end do;`
 `print(i); print(max);`
 `end proc;`
6. `pluspetit :=proc(a :real)`
 `local k :integer,s :real;`
 `s :=0; k :=0;`
 `while s<=a do k :=k+1; s :=s+1/k end do;`
 `print(k);`
 `end proc;`
