THE PREPRINT SERVER FOR BIOLOGY

bioRxiv posts many COVID19-related papers. A reminder: they have not been formally peer-reviewed and should not guide health-related behavior or be reported in the press as conclusive.

New Results

ACE2 binding is an ancestral and evolvable trait of sarbecoviruses

 Tyler N. Starr, Samantha K. Zepeda,  Alexandra C. Walls,  Allison J. Greaney,  David Veessler,
 Jesse D. Bloom

doi: <https://doi.org/10.1101/2021.07.17.452804>

This article is a preprint and has not been certified by peer review [what does this mean?].

Molecular Evidence for SARS-CoV-2 in Samples Collected From Patients With Morbilliform Eruptions Since Late Summer 2019 in Lombardy, Northern Italy
