

Les fonctions $f_n : x \mapsto x^n$, $n = 0$

Convergence simple : x fixé

— courbe de f_n courante ● point $(x, f_n(x))$ — limite f

Les fonctions $f_n : x \mapsto x^n$, $n = 1$

Convergence simple : x fixé

— courbe de f_n courante ● point $(x, f_n(x))$ — limite f

Les fonctions $f_n : x \mapsto x^n$, $n = 2$

Convergence simple : x fixé

— courbe de f_n courante ● point $(x, f_n(x))$ — limite f

Les fonctions $f_n : x \mapsto x^n$, $n = 3$

Convergence simple : x fixé

— courbe de f_n courante ● point $(x, f_n(x))$ — limite f

Les fonctions $f_n : x \mapsto x^n$, $n = 4$

Convergence simple : x fixé

— courbe de f_n courante ● point $(x, f_n(x))$ — limite f

Les fonctions $f_n : x \mapsto x^n$, $n = 5$

Convergence simple : x fixé

— courbe de f_n courante ● point $(x, f_n(x))$ — limite f

Les fonctions $f_n : x \mapsto x^n$, $n = 6$

Convergence simple : x fixé

— courbe de f_n courante ● point $(x, f_n(x))$ — limite f

Les fonctions $f_n : x \mapsto x^n$, $n = 7$

Convergence simple : x fixé

— courbe de f_n courante ● point $(x, f_n(x))$ — limite f

Les fonctions $f_n : x \mapsto x^n$, $n = 8$

Convergence simple : x fixé

— courbe de f_n courante ● point $(x, f_n(x))$ — limite f

Les fonctions $f_n : x \mapsto x^n$, $n = 9$

Convergence simple : x fixé

— courbe de f_n courante ● point $(x, f_n(x))$ — limite f

Les fonctions $f_n : x \mapsto x^n$, $n = 10$

Convergence simple : x fixé

— courbe de f_n courante ● point $(x, f_n(x))$ — limite f

Les fonctions $f_n : x \mapsto x^n$, $n = 11$

Convergence simple : x fixé

— courbe de f_n courante ● point $(x, f_n(x))$ — limite f

Les fonctions $f_n : x \mapsto x^n$, $n = 30$

Convergence simple : x fixé

— courbe de f_n courante ● point $(x, f_n(x))$ — limite f

Les fonctions $f_n : x \mapsto x^n$, $n = 30$

Convergence simple : x fixé

— courbe de f_n courante ● point $(x, f_n(x))$ — limite f
